BOW ISLAND

Mr. Phillips of Medicine Hat, who was here last week, after making an inspection of our grain well, reported that there is no fear of shortage of grain but water is the trouble, and the well has to have the water pumped out

Mr. and Mrs. Hard's friends are very sorry to hear that Mr. Hust is now suddenly called away on account of his mother's illness.

Mrs. Elmer Still was the guest of Mrs. V. M. Gillett last week.

Mrs. Moore of Medicine Hat was taking up residence in the rooms over their store on Main Street.

Mrs. S. Y. Hust was a visitor to Medicine Hat last week.

Mrs. Moore of Medicine Hat was in town last week on business.

The Municipality had a car of Timothy hay shipped in last week.

Mrs. Dewey was a business visitor to Bow Island last Friday.

Mrs. H. Smith and Mrs. Hamond from south of Burdett, motored into Bow Island last Saturday.

Mike Ellis left on the noon train last Tuesday for Grange.

Charlie Swanson left for Purple Springs, Tuesday, to be Secretary for the women there.

Quite a large party (from 25 to 30 people) assembled at Mr. and Mrs. Stengel's home last Saturday evening, to bid goodbye to Miss Walker who is leaving Bow Island.

A very enjoyable time was spent in games etc., and a nice lunch was served by the hostess, the party not breaking up until about 4:30 p.m.

If you want to Buy, Sell or exchange anything you possess, either large or small, just have it put in our "Bargain Column"

U. F. A. held their regular monthly social at the Fortin Palace Hotel last Friday evening the 21st, meeting, singing, recitations and debating were given by the members of the U.F.A., there was quite a large crowd to attend after the meeting refreshments were served and every one had a splendid time.

Ben Burwell says it pays to advertise since putting his ad in the Bow Island Review the pies and cakes are rolling in, in good shape all he wants now is a good kind hearted housekeeper.

On general pusher watchman Art Garrison was grabbed by one of the road Engineers and taken East as far as Dunmore Art did so well with the scoop that the same Engineer decided to kidnap him and took him through to Lethbridge where we hear the very best reports of him. Art will make good and we all wish him the best of success.

Mr. McCaughey the B. and B. Foreman has completed the cement work on the silver East of town, quick work Mac.

Mr. Briggs is our new operator here he came from Wetaskiwin he says he likes the gas.

We are glad to say that our esteemed Secretary Treasurer Mr. E. Harding was able to be around again last Thursday, after being on the sick list since last Friday.

The Women's Institute held their weekly meeting last Tuesday.

All Ladies please remember the date of the annual meeting which will be held on the 3rd. December.

Mrs. L. Collin and family went east for a trip last week.

J. W. Hard and wife left Nov. 25th. for Los Angeles for the winter.

Mr. Leary and Russell Schenck returned from the Lumber Camps in B.C.

Mrs. Caughey is visiting Mrs. Beattie.

Miss K. Mason spent the week end at Lethbridge visiting her parents.

Mr. Halpin spent the week with his son S. J. Halpin at Coalridge.

Seven Persons

From our own Correspondent.

The Welfare League gave an entertainment in the Church last Friday.

Mr. R. Hull spent Sunday here with his family, and left on the midnight train for Bow Island.

Mrs Alfred Warral left last week for Thomas, Minnesota, where she will visit friends.

Mrs. Tonberg entertained the Ladies of the U. F. W. A. at a social afternoon last week, owing to the cold weather some were absent, nevertheless there was a nice crowd present. Mrs. Tonberg's hospitality as a hostess is well known by many friends.

Mrs. H. Locke and son returned from Watton B.C. from visiting Mrs. Locke parents.

T. Henderson returned from Calgary last week.

John Meyer left last week for Creston B.C. where he will stay for the winter.

Mrs. C. Webb and Mrs. T. McDonald were visitors to Medicine Hat last week.

Mr. D. K. Peaver from Bassano is on a visit and is the guest of Mr. G. A. Brack.

Mr. Malcolm was a visitor to Medicine Hat recently.

Miss Best of Medicine Hat addressed the Ladies of the Missionary Society and others last Thursday in the Church, the thought brought out in the address was "the great need of home & foreign missionary work." After the meeting closed a nice lunch was served by the home missionary workers here.

Mrs. Mundy was in the Hat a few days last week and was the guest of Mrs. Hewitt.

Government Official will be in Winifred November 28th, and 29th, to give out relief to all needy farmers at Winifred.

A Journey to Portland Oregon

Portland Oregon Nov 24th. 1919

Dear Editor

I am sending you a few lines to let you know that we arrived in Portland O.K. and found the people pretty busy, and the weather nice and warm crossing the Rocky Mountains there was no snow to speak of, no more than on the prairie, and it was raining most of the time.

When we got to Spokane the snow had disappeared and from there to Portland it surely was pleasant; we are having exceedingly fine weather here now nice and warm.

Crops here were short this year, wheat going from 12 to 15 bushels per acre, but prices are a little better, they pay \$2.36 for soft wheat.

It was pretty dry in Eastern Oregon in the Wallowa County.

When we get settled I will write you again, and wish you would send us the Review as I would like to read the news

I am your truly
F. Ley

Town Council

A special meeting of the Town Council was held on the 15th, day of November 1919, at 3 p.m.

Members present, Mayor Reid Councillor Hard; Swennumson and Allen, Secretary Treasurer Bateman.— Meeting was called for the purpose of further discussing the Martin Phillips proposition relative to bailing out the Gas Well.

The Mayor and Councillor Hard were appointed to go to Medicine Hat and make final arrangements with Messrs Martin & Phillips for bailing out the Gas Well.

There was a Meeting of the Electors held last Monday in the Oddfellows' Hall, to hear the Financial Statement of the Town.

It was decided to do repairs to the local Cemetery.

A motion was also passed to have a Business Tax, to help keep the Schools open here.

No need to miss your train, if you look at the following

WINNIFRED.

Mrs. W. O. Long is reported quite sick.

Mr. M. H. Smith is rapidly gaining from his sick spell of Tonsilts.

Mr. C. Kotler returned from Biecker last week he expects to locate at Rosekirk as soon as he can get a house to move into.

Mrs. Ethel Hinck Supdayed in Medicine Hat at the home of Mr. and Mrs. Hills

Billy Larson of Grassay Lake spent Sunday at the home of Mr. and Mrs. Jas. Larson

Mrs. A. N. Wetherall entertained at a o'clock dinner Sunday evening to a number of friends.

The accounts as read were referred to the Finance Committee and if found correct to be paid. The application from J. H. Munroe for application to cemetery deed lot was granted block 14 C of the Town Cemetery.

Secretary Treasurer asked authority to issue redemption Certificate account lots 8 and 9 Block 11 Plan 58005.

The Secretary Treasurer was authorized to issue redemption certificate on account of lots 8 and 9 Block 11 Plan 58005, appearing on the 1915 Tax Enforcement Return; upon the amounts required to settle the taxes and charges due the Town upon the said lands, being tendered him.

Returning Officer By-Law was submitted and passed No. 87.

The Town Solicitor was au-

thorized to offer J.M. Showalter

\$100.00 in full settlement re-

right of way through the S. 1/2

Sec. 4-11-11 West of the 4th,

upon Mr. Showalter executing

an agreement satisfactory to

the said Solicitor, and that Mr.

Showalter will be paid the sum

upon advice the said agreement

has been executed.

Master of Ogilvie Company

Gas Agreement

The Solicitor reported that

The Ogilvie Flour Mills Co. Ltd

through their local manager

refused to put the corporate

seal of the Company on the

agreement with the Town dat-

ed the 29th day of January

A. D. 1919 upon the grounds

that the seal was not necessary

and that he did not wish to

bother the head office at Mon-

tréal with the matter, as he had

authority himself to act. The

Solicitor advised that in view

of the fact that the agreement

had been acted upon for some

time, that it would be in order

for the Town to accept it as ex-

ecuted, and that his opinion

was that they were bound there-

under, and the Secretary-Treas-

urer was instructed to file the

agreement.

The matter of ringing the

Curfew Bell was brought before

the council and discussed; and

it was decided that it was the

wish of the Council that the

Curfew By-law be enforced and

the Chief of police was so

instructed.

The Need For National Economy

With the successful flotation of the very large amount of \$675,000,000 last year, the people of Canada have made provision for their great financial indebtedness occasioned by the war. When the Great War broke out with such suddenness in August, 1914, Canada pledged its last man and last dollar, if necessary, to uphold the cause of justice and liberty and to secure the triumph of those principles in which they believed, and which were regarded as alone making his worth to the world.

The Canadian people have kept faith. Their soldiers bore the brunt of battle right up to the last minute of the fighting, and the Canadian troops, in the stormy sweep, the spearhead of the great allied advance from Amiens and on through Cambrai and Mons to victory. Those who remained at home served by work, self-sacrifice, and economy, and those who poured out their money in large amounts and small in order to enable the government to pay the country's bills and liquidate the indebtedness it had contracted. Canada did her duty, but it was owing to its own people who have honored it to their country.

Canadians have done well and have no reason to belittle their own efforts or to be ashamed of the results achieved by their brothers here and all, and more, than was asked of them, even by their own government. Many reasons might have been advanced why the people of the Dominion should not have done this, but the reasons in the broad interest, The Victory Loan 1919 was a vote of confidence, not in any government or administration, but in Canada—a demonstration by the people of Canada of a sufficient sense of themselves and their Dominion.

Now that the people have been provided for a "cleaning up" of the financial slate, and the restoration of the country to a more normal basis, it is time to look to the future. The Federal Government to institute the strictest economy in all national administration, and by the introduction of reforms, place Canada on the highway to market future development and prosperity, and the welfare and contentment for all its people.

There is nothing to be gained in seeking to disguise the fact that there has been gross extravagance at Ottawa during the past year. One doubts some of this was inevitable during the war, and Canada was not the only country to make such mistakes. But it cannot go on. It must be checked forthwith, and returned to the affairs established. Canada's expenditure at present far exceeds the revenue. This condition cannot be tolerated much longer. The two must be made to balance. This can only be done by

one of two ways, or rather by a combination of both.

First and foremost, our national expenditures must be reduced to the lowest possible point consistent with efficient administration. There is room for the elimination of waste, and the careful husbanding of the country's finances. If this cannot be carried to the point where the expenditure is reduced to prevent increases in the income of the treasury, there must be increased. This, of course, means an increase of taxation, and this the people must bear.

The second method is the Federal Government's obligation to work in time in evolving a scientific scheme for raising the revenues required to cover our national expenditures. This will involve the most careful consideration in order that those who are best able to carry the burdens shall take the heavy end of the scale, and those least able get off more lightly, and that there shall be no taxation policies so drafted as to promote the maximum development of the natural resources of the country by which alone can employment be provided for all the people and our national wealth and prosperity be increased.

Our present haphazard system of Federal financing must be scrapped, existing injustices and inequalities in taxation removed, and a general readjustment of taxation classification along the right lines, and this must be done without further delay if disaster is to be avoided and the confidence of the people not seriously undermined, and income become more widespread.

The Canadian people, too, individually, must realize that our greatest national need today is a universal adoption of the policy of increased production coupled with greater economy in living. For a start at least, we must be ready to sacrifice maximum and extravagant indulgences of all kinds stopped. Having made the world safe for democracy, we must now set ourselves to the task of making democracy safe for ourselves, and that can only be done by the people as a whole getting back to first principles in conduct, in living, and in productive work.

The longest single patrol in the Yukon territory, from Dawson to McPherson, now covers the Mackenzie River, a distance of 1,000 miles. The patrol last year made the journey in 57 days.

THE FALL WEATHER HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day is warm and bright and the next wet and cold. These sudden changes bring on colds, and the little stomach is kept right the result may be serious. There is nothing, however, that can be done to keep the little ones well. They sweeten the stomach, regulate the bowels, break up catarrh, and are good for the lungs. Tablets are sold by medicine dealers or by mail at 25 cents a box from The National Remedies Co., Bowditch, Ont., Ont.

One song said a storm is of more benefit to mankind than a whole concert when the sun is shining.

Only the uninformed endure the rainy weather. The following points apply: Holloway's Con Cures and get relief.

To Increase Egg Production. One hundred red "egg" layers on each of the 750,000 farms in Canada is the slogan adopted by a poultry club just formed in Winnipeg, Manitoba. Allowing a net profit of a dollar per dozen eggs, the club expects to add to the annual revenue of \$75,000,000. An elaborate campaign to further this project will be waged.

It is human nature to want to amuse someone occasionally.

One Argument For More Salary

An Unfortunate Junior Teacher Who Lingered Long in the Service at a Miserable Salary

Victoria's feminine school teachers of salary, and generally believe the rise in the cost of living. There are some, however, who believe that much was accomplished by one who described herself as "an unfortunate junior teacher who has lingered long in the service at a miserable salary."

This teacher illustrated the deplorable condition of her wardrobe by showing a tattered specimen in a neat brass picture frame to the editor. Education, who forwarded the note and the garment to the Minister for Education, the latter presenting it to the Premier. The note was placed on an official file, the garment was placed in an unopened basket, and the junior teacher was greatly advanced—Christian Seigno Montror.

A hawk can spy a lake from almost exactly the same color at 20 miles away as it is at 100 yards, and a man can recognize a man from a woman at 100 yards. A kite soaring out of human sight still distinguish and pounce upon the birds and field mice on the ground, and the distance from which vultures and eagles can spy their prey is almost incredible.

Tis a Marvelous Thing. When the cures effected by Dr. Thomas' Eclectic Remedy are realized, the real and permanent relief it has brought to the suffering wherever it has been used, it will be realized that so potent a medicine should result from the six ingredients contained in the Eclectic Remedy. A trial will convince the most skeptical of its healing virtues.

The longest single patrol in the Yukon territory, from Dawson to McPherson, now covers the Mackenzie River, a distance of 1,000 miles. The patrol last year made the journey in 57 days.

One Way to Silence Wives

Nine American soldiers have married at Anchorage who do not understand a word of Russian. Their wives do not know one word of English, either, and the result is a singular situation in the Islands of the Caribbean Sea. There the men speak a different language from that of the women. In Panama the husbands language is quite different from that of the wives, while in Alaska the wives speak English and the husbands find it impossible to create a common text book for the family use. The husbands do not encourage any familiarity with their spouse, apparently finding the present arrangement too advantageous.

Minard's Liniment Cures Garget in Cows.

Model Completed and Will Adorn Parlour Buildings at Ottawa

To commemorate the placing of the corner stone in the peace tower by the Prince of Wales, and as a small token of the country's appreciation of the royal visit, a marble bust and pedestal of his陛下 will be erected in the parlour buildings at Ottawa.

The model, already completed out of white clay, having a Gothic pedestal in harmony with the building, was exhibited in the hall of the Canadian reception committee, and the Prince is shown dressed in military costume, and though dignified, is tinged with a slight smile which twists his whole face.

Steplesomes.—Sleep is the great restorer, and to be deprived of it is a vital loss. Whatever may be the cause of it, indigestion, nervous depression or fatigue, Farmeele's Vegetable Pills, by regulating the action of the stomach, will restore normal conditions and healthy sleep will follow. They contain a sedative force upon the nerves and where there is unrest they bring rest.

Alberta Stockmen

To Be Well Represented at International Livestock Show at Alberta

Alberta is to be well represented at the International Livestock Show, to be held at Chicago in October. The Department of Animal Husbandry of the Alberta University has undertaken the selection of six steers and two fed in Alberta. The animals for exhibition will be furnished from three leading beef breeds of Alberta, Herefords, Aberdeen Angus and Shorthorns, and several other animals offered by stockmen of the province. They are to be available for demonstration purposes at the university during the season 1919-20, before being sent to the exhibition.

Alberta stockmen are confident that their cattle make a good showing at the international show.

Big Lumber Deal Closed

What is probably the biggest deal in the history of lumber in the history of the timber industry of Manitoba has just been negotiated at Winnipeg.

Three hundred and twenty-four miles of timber limits in the Pas district, in Northern Manitoba, have been disposed of for \$1,500,000 to J. D. Watson, of Minneapolis, by the Flagler Lumber Company.

The deal, which includes a large sawmill, planing plants,

and logging equipments, becomes effective at once and possession will take about a month.

H. Flagler had a thriving company—a pioneer in the north country, going to the Pas in 1904, when it was Indian territory.

The capacity of the company is about 190,000 feet per day.

The words of a weak woman often carry more weight than the muscles of a strong man.

No man is necessarily simple because he lives the simple life.

A wise man never boasts of his wisdom. He leaves that to his press agent.

We N. U. 1291

There's something really fascinating about the nut-like flavor of

Grape-Nuts

The strength and nutrition gleaned from this wheat and malted barley food make it a most sensible breakfast cereal, while its low cost adds true economy.

Germany's Pre-War Debt to Lame makers

Nottingham Commerce Chambers Urge Government Action

Nottingham lace merchants are exercised about pre-war debts owing to them by Germany. At a meeting of the chamber of commerce they decided to press on the government the urgency of recovering such debts. It is computed that the amount of these debts exceeds \$2,500,000. A great part of the debt was incurred by a firm based in Nottingham before the war was declared for firms in Plauen, whose withholding of payment has crippled severely some of the Nottingham houses. One local firm has more than \$400,000 owing to it in Germany.

Alleged Letter Of Admiral von Ruetter

A Truly German Excuse to Cover Hannish Trick

A letter alleged to have been written by Admiral von Ruetter to Mr. Lloyd George, protesting against the sinking of the British liner, the *Cambridge*, is demanded. The German fleet at Scapa Flow when it was scuttled, and other officers of the sunken fleet, is published in the "Teigische Rundschau." Regarding the scuttling of the warship, Admiral von Ruetter is quoted as saying:

"I was obliged to assume that war had again broken out, from the announcement in the British press regarding the sinking of the German counter-proposals to the Peace Treaty. Even if my idea that war had again broken out subsequently proved erroneous, nevertheless I acted in the conviction that it was, and I and my subordinates, therefore, cannot be treated except in accordance with the usual customs of war."

"Jimmy's Escape"

"Jimmy," a small and helpless to her smart nine-year-old, what became of the fruit cake I made for you as a treat yesterday? Did you eat it?"

"No, mama," answered Jimmy with a grin. "I gave it to the teacher instead."

"That was very generous of you, Jimmy," complimented his mother.

"Did not your teacher eat it?"

"Yes, I think so," answered Jimmy. "She was at school today."

Minard's Liniment Cures Distemper.

Skinned Milk Wanted

Two hundred thousand pounds of skinned milk are being wasted yearly in one dairy alone, according to the statement by a Saskatoon milk dealer, who declared his company could easily sell the surplus if it was forced to dump it into the sewers. The board discussed the possibility of establishing a cheese plant in order to use waste milk.

TORPEDOED!

Don't blast your Liver and Bowels, but take Cascarets.

You men and women who can't get sleeping—right who have headache, costed tongue, bad taste and foul smelling breath, who are nervous and upset, and bothered with a sick, gassy, disordered stomach and constipation.

Are you keeping your liver and bowels clean with Cascarets, and cascara bark, Calamus, Sals, Oil and violent pills?

Cascarets work whilst you sleep; they cleanse the stomach, remove the sour, undigested, fermenting food and the accumulated waste matter and the constipated waste matter and the poison in the bowels. Cascarets never offend the stomach and Cascarets coat so little, too.

Great Hopes of Finding Oil

In reply to a newspaper representative at Edmonton, C. O. Stollmeyer, of the Imperial Oil Company, stated that they have great hopes of developing a Canadian supply of oil in Alberta, but it will take a long time. Geologists of the company have been working in the territory during the past summer, and from results already obtained they feel quite sure that the world will profit by their discoveries.

Mr. Stollmeyer and other officials of the company have been going over the work that has been accomplished and considering plans for next year's investigations.

Alberta Stockmen

To Be Well Represented at International Livestock Show at Alberta

Alberta is to be well represented at the International Livestock Show, to be held at Chicago in October.

The Department of Animal Husbandry of the Alberta University has undertaken the selection of six steers and two fed in Alberta.

The animals for exhibition will be furnished from three leading beef breeds of Alberta, Herefords, Aberdeen Angus and Shorthorns, and several other animals offered by stockmen of the province.

Alberta stockmen are confident that their cattle make a good showing at the international show.

Asches of Flage Reach Paris

The ashes of the 70 flags captured by the Germans in 1870 and burned in Berlin last July in defiance of the peace treaty, have arrived in Paris by the French Army Museum, accompanied by an officer and some soldiers.

U.S. Senate's Action Puzzle to Britain

London.—Nearly all British public men are silent concerning the United States' senate's dealings with the peace treaty. The reason for this is that the universities, United States citizens, regard the question as United States domestic political affairs, and fear that any expression from them might give offence, and be taken as attempts to influence United States policy.

Lord Robert Cecil and Lieut.-Gen. Jan Christian Smuts were the British sponsors for the League of Nations and are largely responsible for the details thereof, and both have registered their disapproval.

The latest news from Gen. Smuts in his appeal to the United States, and Lord Robert Cecil in a brilliant speech in the House of Commons.

Lord Roberts stands on speed and refuses to answer questions as to what he is doing to the subject at present.

It would be impossible to try to summarize public opinion. The first views reflected by the public was that the United States had given up back on her agreements. Later advice from Washington, however, softened this feeling.

United Statesmen generally, the relations between the senate and the President, the rule regarding the two-thirds majority and how a current resolution might bring peace with Germany, are puzzling to the average man.

Sir Henry Drayton Thanks Workers

**Gratification at Success of the Victory
Loan and Appreciation of Patriotic Service Rendered**

Ottawa.—In a statement handed to the Canadian Press, Sir Henry Drayton, Minister of Finance, expressed his gratification at the success of the Victory Loan and his appreciation of the enthusiastic and patriotic service rendered by these workers in its behalf.

He said: "The Government everywhere will help to confirm the credit of Canada by holding the bonds which they have purchased."

Outbreaks in Fu Chow

Several Chinese Students Killed and Three Wounded

Anny China.—There have been serious outbreaks in Fu Chow. Several Chinese students have been killed and three wounded by Japanese subjects.

All the schools and markets have been closed.

The situation throughout Fuiken is serious.

Johnson's Condition Is Improved

London.—Johnston, the American anti-saloon organizer, is greatly improved. Johnson suffered a severe injury of the eye recently in an attack on him by medical students and others during the course of a debate on prohibition, in which he was engaged.

Explain Delay in Wheat Shipments

Winnipeg.—Following the arrival of Jas. Stewart, chairman of the Wheat Export Board, that failure to move western wheat in normal volume was due to failure of the railways to supply cars, the administrative committee of the Canadian Railway Association has issued this statement:

"Referring to the statement made to the press by James Stewart, chairman of the Canadian Wheat Board, respecting the movement of wheat to the head of the lakes, we wish to inform him that in conclusion and in comparing this year's movement with the record one of 1915, Mr. Stewart has conveniently overlooked a number of important factors."

"First.—That while the crop matured earlier than usual, threshing was delayed over a large portion of the West and marketing was unusually light until freeze-up came."

"Second.—That winter struck the prairies about a month earlier than usual, with the inevitable result that transportation was slowed up."

"Third.—That as a result of the prolonged western coal strike the railways were called on to move more commercial coal during the present

U. S. Will Not Attend Labor Meeting

**Canadian Labor Delegates Say That
11 Should Make No Difference**

Washington.—Rejection of the peace treaty by the United States was widely discussed among delegates to the international labor conference. There is general realization that the senate's action, to be a signatory of conventions adopted by the conference. At the same time there is a general feeling that the labor branch of the League of Nations should go ahead with its work irrespective of what the United States may do.

Canadian employers have already expressed the view that Canada should not assent to labor conditions which the United States is not prepared to accept.

Canadian labor takes an entirely contrary view. Tom Moore, president of the Trades and Labor Council, said that the action by the United States should not hinder the adoption of progressive legislation by Canada, "even though the United States decides for the time being not to become a member of the League."

Tom Moore said: "I am of the opinion that the United States will eventually be forced by economic conditions to adopt progressive measures similar in the provisions to those decided upon by the labor conference."

Australia Suffers From Severe Drought

**Stock and Crop Have Been De-
stroyed by Rains and of Setters Rained**

London.—Australia, especially New South Wales, is suffering the most devastating drought since white men have resided in that country, even the drought of 1902 was not so severe.

Moreover, restrictions on distillation during the war and the necessity of maturing stocks may lead the dealers to hold large quantities.

"On the other hand, it will be possible to increase consumption by reducing whiskey which has reached and is still reaching England, though clearance from the estuaries may be slow.

Great Britain Removes Whiskey Restrictions

Release of 115,000,000 Gallons Announced in House of Commons London.—One hundred and fifteen million gallons of whiskey, beer and other distilled spirits held in Great Britain, were released from wartime restrictions, and may be distributed to all-comers who can present the dealers to sell them.

The removal of the restrictions, which was made without the restrictions, was made in the House of Commons by the Food Controller, came as a surprise to the members, who were gathered to hear the speech.

The liquor trade was equally surprised and was besieged by the well-to-do among the public as soon as the unexpected news spread.

Many orders for fifty to one hundred cases were placed immediately,

according to numerous commissions for smaller quantities.

Although it is figured that enough spirits have thus far to supply every man, woman and child in the country, it is doubtful if the public will find it easy at present to increase consumption to a great extent.

The government maintains control of the market price, for which the shillings per bottle, and it is not believed that the dealers will sell much below that figure, as the existing high duty remains.

Moreover, restrictions on distillation during the war and the necessity of maturing stocks may lead the dealers to hold large quantities.

"On the other hand, it will be possible to increase consumption by reducing whiskey which has reached and is still reaching England, though clearance from the estuaries may be slow.

Planned Assassinations

**Present Were Intended
for U.S. Government**

Philadelphia.—A plot to assassinate Christmas mail packages was announced by Superintendent of Police James Robinson.

The plot, which is the result of the killing of the plot, which is now considered reliable, indicates it is now directed against federal, state and city authorities who took part in the national roundup of radicals planning overthrow of the government.

Philadelphia police said that the plot was hatched by agents of the anarchist squad" who was afraid of the consequences of the plot.

To Investigate Shipbuilding
Victoria.—For the purpose of ascertaining the shipbuilding situation in the United Kingdom and possibly to place an order with one of the Old Country firms for the construction of a new liner, the Canadian coastwise British Columbia coastwise passenger passenger trade, Capt. J. W. Troup, manager of the British Columbia coastwise steamship service, after conferring with the company officials in Montreal, will take passage to England.

Complaints of Vaccination
Toronto.—Allegations against the civic department of public health in connection with forced vaccination in schools were made at a meeting of the board of control, and will be thoroughly investigated.

James P. Farley, told the board that their children were compelled to submit to vaccination, despite the fact that they sent letters to the school demanding that this be done not.

Attempt to Kill Admiral Kolchak
London.—An attempt to assassinate Admiral Kolchak, head of the All-

ied forces, was recently maintained its capital at Omsk, is reported in a wireless dispatch received here from Moscow. Hand grenades were thrown at Kolchak, six soldiers being killed and twelve wounded.

Gen. Smuts Appeals to U.S. on Treaty
Johannesburg, South Africa.—A high member of the League of Nations Commission, in a message from South Africa to America, appeals to America not to blast the hopes of the world through non-ratification of the treaty covenant by the senate.

Fifth.—That the early advent of winter, coupled with a shortage of feed, threw on the railways the burden of handling, during the months of October and November, more than three times the number of head of livestock which would normally move at this period of the year.

Sixth.—That the railroads controlled by the American railroads failed to return thousands of cars belonging to Canadian railways, which are now south of the line. After allowing for the American cars which are in Canada, the balance stands 22,421 cars in favor of the United States.

Seventh.—That in dealing in figures respecting the movement of wheat only Mr. Stewart overlooked the fact that the railways had been called on the year handle a larger percentage of cars of grain than in former years."

First.—That while the crop matured earlier than usual, threshing was delayed over a large portion of the West and marketing was unusually light until freeze-up came.

Second.—That winter struck the prairies about a month earlier than usual, with the inevitable result that transportation was slowed up.

Third.—That as a result of the prolonged western coal strike the railways were called on to move more commercial coal during the present

New Contract Signed by Railwaymen

is Practically the Same as Obtains on
U.S. Roads

Winnipeg.—The general committee of the Brotherhood of Railway Conductors have signed a new agreement with the C.P.R., which carries an increase in wages for most of the men in train and yard service and provides for a minimum working hours, working conditions of one man, switch, tenders now being included in the employees' legislative act.

The contract signed is virtually the same as obtains on United States roads, but the greater portion of the increase in wages has been paid by the company since last summer, the men having had an interim agreement to that effect.

Von Hindenburg Explains

**Says Defensive Strength of Germany
Was Unfavorable From the Start**

Berlin.—Field Marshal Von Hindenburg declared before the committee of the Reichstag assembly investigating war responsibilities.

"I know with absolute certainty that neither the people, the Kaiser, nor the government desired war, for whom the government knew better the other German's tremendously difficult position in a war against the entente."

Germany's defensive strength, said the field marshal, was as unequal as possible from the start.

It might be best to history to decide whether the field marshal was told the truth.

Moreover, restrictions on distillation during the war and the necessity of maturing stocks may lead the dealers to hold large quantities.

"While with the enemy, notwithstanding its superiority, all parties were united everywhere firmly in the determination to win victories, with the result that the number of men in the armed forces was much inferior, interests at home made their influence felt and this state of affairs led to the breaking of the will to victory."

In all great decisions, Ludendorff said, there were of one mind, and when he came in full accord from

August 29, 1916, to the end.

Field Marshal Von Hindenburg, after an allegation of shooting with a pistol to kill his hired man, H. J. Ward.

Ludendorff told his story of the connections of the hired man with his wife, and the general's wife, of the uniform law so well, that he was found not guilty. Judge Galt told this man that they had returned this man and "discharged" the soldier who was serving him and whose hands shook with the accused and warmly sympathized with him, saying they were glad to have the opportunity of being able to set him free without a stain on his character.

Bolshevik Active in Turkistan

London.—The British authorities have received disturbing reports of Bolshevik activities in Turkistan and Tashkent, capital of the former Russian province of Turkistan, is the centre for classes of instruction, where Bolshevik emigres are trained and taught various languages before undertaking missions farther east.

Canada to Have Own Fur Sales

Winnipeg.—Canadians have expressed the opinion that this country ought to have a fair sale of its own fur products.

Public Market Building,

To Put Treaty In Force at Once

Quebec Will Discuss Prohibition

Only Two Important Measures Are
Down for Hearing This Session

Quebec.—At the Quebec legislature, which opens December 10, only two important measures are so far on the order of the day.

The first is the bill for colonization, and the revision of the code regarding legislation for large corporations.

"It is expected, however, that there will be a debate and probably a proposed amendment on prohibition, but it is anticipated that the present regulation regarding the liquor tariff will remain in force at least a couple of years yet."

Sinn Fein May Enter Parliament

Will Take Part in Discussion on
Irish Government Bill

London.—There are strong rumors in the House of Commons lobbies that the Sinn Fein members are contemplating taking their seats at Westminster, coincident with the cabinet's coming announcement of the new government.

It is reported also that Countess Makieville will appear at the same time, in order to forestall Lady Astor as the first member of parliament, if Lady Astor is elected.

Riots in Cairo

Egyptian Flag Carried and Cries
Raised of "Down With
England"

Cairo.—Students carrying Egyptian flags and shouting "Down with Miller," began the rioting here. Roughs joined with them and got the upper hand of the police force. The infantry was compelled to fire on the mobs storming the police station, further infuriating the rioters.

The British troops finally restored order, driving off the demonstrators, who were armed with rifles and revolvers.

The city is heavily patrolled.

The rioting was in five different localities. The object of the mobs in wounding the police was to release revolutionaries who had been arrested. They were successful in freeing several such prisoners.

The number of minor casualties cannot be estimated with any accuracy, but a number of persons of the slightly wounded were carried to their own homes. The Egyptian infantry fired into the crowds at two places where rioting was going on, killing several persons and wounding several others. No English were injured, although the rioters entered several European houses and accused the inmates of firing on the crowd.

The European community generally went about its business as usual.
